

**TO:** INGISI Geodetic Control Workgroup  
ISPLS GIS/LIS Committee  
Office of State Geodetic Advisor  
County Commissioners Association

**FROM:** Lorraine Wright  
Geodetic Control Workgroup  
Indiana Geographic Information System Initiative  
Indiana Department of Environmental Management

**DATE:** September 12, 2003

**SUBJECT:** Next meeting of the joint INGISI Geodetic Control Workgroup participants and ISPLS GIS/LIS Committee, September 18, 2003

Agenda:

- 1) Discuss the information/report to be submitted in the Indiana Geographic Information System Council on the efforts of the workgroup meetings. The final information/report will be submitted to the Governor and the National States Geographic Information System Council. The summary report and detailed report are still being formulated and will be provided at the meeting.
- 2) Report on and discussion of the WTH Engineering, GIS Think Map demonstration on August 28, 2003
- 3) Status on the development of the process steps to allow section corner tie card information to become digital and link that data to a map.
- 4) The workgroup has been asked to work with county surveyor with respect to their role in perpetuating State and County boundaries. These boundaries would then be used, if available, in the corresponding GIS framework layer.
- 5) Discuss the Indiana Geographic Information Council's Standards and Recommendations Committee's work on Cadastral recommendations. See attachment from Gary Kent on same.
