

## **I-Team Framework Orthophotography Workgroup**

### ***July 26, 2004 Meeting***

**Location:** Indiana Government Center South Building, Training Center,  
Training Room 11 10am-3:00pm

**Attendees:**

Anna Radue, IU-UIITS  
John Buechler, IUPUI-Polis  
Dave Coats, IUPUI-Polis  
Jim Stout, IMAGIS  
Bruce Nielsen, USDA  
Larry Stout, Hamilton County  
Roger Koelpin, ITOC

Mathew McCormack, IMAGIS  
Jill Saligoe-Simmel, IGIC  
William Holder, Kosciusko County  
John Thomas, City of Lafayette  
James Robb, IDEM  
Betty Kiechle, Lake County

1. Revised Draft Schedule of Events
  - i. Refer to MS Project file
2. Spent meeting editing draft Orthophotography RFP
3. Hard drives being shipped to TX for 2003 NAIP Orthophotography delivery
4. Mosiacking / tiling discussion
5. Price list should be laid out by county – provide word and .xls file to bidders with counties and square mileage.
6. Do we need a Performance Bond? Rog will discuss with Earl – Larry and Jim noted this is not standard practice with large engineering companies and would potentially increase the project cost. Rog indicated State performance bond requirements were typically 10-20% of total contract.
7. Naming conventions
  - a. DOQQs were in map name (by quad); NAIP were named by Lat/Long (Anna recommends this approach since it makes file sorting by location easier)
8. Project Sets
  - a. One – include file w/map name that goes with Lat/Long name for uncompressed TIFF data
  - b. Two – deliver as State Plane
  - c. Add pg 20 PP7: MrSid must have projection defined (create AUX file) lossless compression ratio and target compression ratio.
