Job Details

Company Information

Atos Origin is a global information technology services company. Our business is turning client vision into results through the application of consulting, systems integration and managed operations. Atos Origin is one of the few companies in the world that can provide all the 'design, build, and operate' elements of a business solution.

The company's annual revenues are in excess of \$7.3 billion and we employ 50,000 talented and creative people in 40 countries. Atos Origin is the Worldwide Information Technology Partner for the Olympic Games and has a client base of international blue-chip companies across all sectors. Atos Origin is quoted on the Paris Eurolist Market and trades as Atos Origin, Atos Worldline and Atos Consulting. For more information, please visit the company's web site at www.na.atosorigin.com.

Job Description

The individual who assumes this GIS Technical Architect role will direct and support the migration from Intergraph 6.1 to ESRI 9.3. He or she will be responsible for all project management aspects of the effort but will also be very much involved in the subject matter (GIS) aspects of the project. This effort will run three to six months.

Job Requirements

The qualified candidate will have the following background:

- A Bachelors Degree in GIS, IT or related field
- Experience as a Project Manager leading working teams
- Knowledge of the Intergraph platform
- 3-5 yrs experience with the ESRI platform
- Superior communication skills—both written and verbal. Technical writing experience desired
- Public Sector experience is a plus
