Engineering Applications - System Analyst
Indianapolis Power & Light Company
Indianapolis, IN

The region's leading electrical power provider, Indianapolis Power & Light Company (IPL) serves nearly half a million residential, commercial, and industrial customers. Our success depends on the talent and dedication of our high-energy team. Join us and power up your own rewarding career.

The **Engineering Applications – System Analyst** will be responsible for activities related to system administration, including assigning personnel to various projects, directing their activities, and evaluating their work. The successful candidate will ensure long-term requirements of systems operations and administration are included in the overall information systems planning of the organization and assume responsibility for the installation, maintenance, configuration, and integrity of computer software. We will also rely on the Engineering Applications – System Analyst to implement operating systems enhancements that will improve the reliability and performance of the system.

The preferred candidate will have a Bachelor's degree in Information Systems, Geographic Information Systems, Computer Science, Computer Technology or similar discipline and six years of recent experience as an Engineering Applications – System Analyst, including Geographic Information Systems. Non-degreed candidates must have a minimum of ten years of recent experience as an Engineering Applications – System Analyst, including Geographic Information Systems. Other requirements include:

- An understanding of the Distribution Electrical model
- Working knowledge of Oracle Databases
- Computer proficiency, including Excel, Word, and Access
- Effective problem-solving and written/verbal communication skills
- Self motivation and a strong focus on goals/results
- The ability to work with limited direct supervision
- Preferably, systems administration experience

We offer competitive salaries, comprehensive benefits and a welcoming workplace. Applicants must be currently authorized for permanent employment in the United States.
