

College Intern-GIS/Drafting & Records

Location: IN-Indianapolis, (Morris Street Service Center)

Requisition Number: 1008

Description

Indianapolis Power & Light Company College Intern, Professional

Indianapolis Power & Light Company (IPL) provides retail electric service to more than 470,000 residential, commercial and industrial customers in Indianapolis, as well as portions of other Central Indiana communities surrounding Marion County.

Internship opportunity for the summer of 2015 is available on our GIS/Drafting & Records Team.

Qualifications:

The successful candidate should be a student pursuing a degree in GIS (Geographic Information). Students with related majors will also be considered. An academic standing of sophomore status or higher is preferred. Candidates with experience with GIS, Geography, Cartography or Engineering, a strong academic background, exceptional attention to detail, organization and presentation skills, and proficiency with Microsoft Office programs are strongly preferred.

Primary Duties:

Data population in our GIS (Intergraph) system including smart addresses, street centerlines, emergency siren locations, etc. Data cleanup/correction in the system. Assist with the land rectification project in our GIS program. Data scrubbing - (this will include both graphical and data fields).
Additional duties as assigned.

Internship Philosophy:

An internship at IPL continues a student's collegiate experience at a large electric utility. It includes opportunities to apply theories learned in the classroom to professional real-world situations.

Academic Credit:

If academic credit for the work experience is desired it is the intern's responsibility to provide appropriate paperwork, interviews and evaluations to the supervisor in a timely manner for completion and verification.

Working Conditions:

Working conditions vary. Conditions include indoor work in clean, well lighted, air-conditioned, heated and ventilated surroundings as well as power generation, transmission and distribution sites. These sites may have high temperatures and humidity; may involve outdoor work observation; require the use of personal protective equipment or special clothing. Job may require some driving (company vehicle) and field work.

The work at IPL is both challenging and rewarding. Interns enjoy competitive salaries and a state-of-the-art technical environment. If you are energetic and enthusiastic, we would like to consider your resume!
